

ดรรชนีบทความ จุฬาลงกรณ์เวชสาร 2015

	A			
		Cataract		413
Acute pancreatitis	395	CBCT		23
Adaptation	703	Child development		313
ADHD	675	Childbirth		195
Adrenal gland volume	275	Chronic kidney disease		127
Advanced hepatocellular carcinoma	47	Cigarette		219
<i>Aedes aegypti</i> mosquito	347	Cirrhotic patients		285
Age group	275	Colorectal cancer colostomy patients		691
Albumin	285	Combined CTA and CTP		1
Anxiety	691	Community participation		717
Architect	537	Comprehensive stroke imaging		1
Attitude	301	Computed tomography (CT)		275
Auditory brainstem response	37	Conduct behavior		103
Auditory neuropathy spectrum disorder	37	Cone beam computed tomography		23
Autistic	301	Current management		395
		Cytochrome oxidase		241
	B		D	
Balance	13	Dengue transmission cycle		347
Behavior	429	Dengue virus		347
Behavioral problems	585	Depression		103, 717
BI-RADS 4 and 5	471	Depressive disorder		207
Blindness	325	Difficult airway management		501
Blood type	619	Digital mammography		471
Bowel preparation	365	Displaced persons from fighting		63
Brain tumor patient	91	Dose area product		23
Breast cancer	151	Dosimetry		23
Breast MRI	151	Drug holidays		553
	C		E	
Caregiver	91	Elderly		717
Caregivers of patients with stroke	457	E-learning		429

Electrolyte imbalance	523	Living kidney donation	127
Emotional support	91	Long-term treatment	253
EQ-5D-5L, reliability	487	Lung transplantation	207
Exploratory factor analysis	137		
		M	
		Mae La Temporary Shelter	63
		Mammogram	151
		Medication holidays	553
		Metabolic alkalosis	523
		Microbilirubin	265
		Microglia	253
		MicroRNA	165
		Mitochondrial DNA	241
		Modified B.A.S.E. program	569
		Mothers of autistic children	703
		Multiple-dose	631
		Multi-scans of small FOV	23
		N	
		Narrow band Chirp	37
		Nested RT-PCR	347
		Nomogram	265
		Non-alcoholic fatty liver disease	165
		Non-surgical management	47
		Northern region	313
		Nutri-PEITC Jelly	631
		O	
		Old age	717
		Otoacoustic emission	37
		P	
		Paracetamol	253
		Patency periods	605
		Pathology	471
		Patient safety	119

Patients with chronic disease	487	Simulated cervical spine movement limitation	501
PCR-RFLP	241	Single parent	181
Peer	301	Single-dose	631
PEITC	631	Smoking craving	219
Percutaneous thrombolysis	605	Social Interaction	325
Phacoemulsification	413	Social support	717
Pharmacokinetics	631	Sodium phosphate	365
Phenethyl isothiocyanate	631	Solid organ transplantation	207
Physician	137	Stress	537
POCT	119	Stroke	457
Posterior urethral valves	515	Supraglottic airway device	501
Practice	553	Surgical site infection	377
Preschool children	569	Suspicious calcification	471
Prevalence	103		
Primary valve ablation	515	T	
Progressive muscle relaxation	219	Teenage	195
Psychostimulant drug	553	Thrombosed hemodialysis graft	605
Psychostimulants	675	Trancutaneous bilirubinometer	265
		Tutoring behaviors	585
Q		Tutoring for admission	445
Quality of life	181		
		U	
R		Universal newborn hearing screening	37
Radiation dose	1	Urgent/emergency abdominal surgery	377
Risk behavior to HIV	75		
Risk factors	377	V	
		Validity	487
S		Vascularized composite allotransplantation	667
Self-esteem	75	Vesicoureteral reflux	515
Senior primary school	585		
Serum potassium level	365	W	
Severity	395	Weather conditions	347
Sex	275
